Terms and Conditions for 30-day Trial

JAECO Orthopedic will issue a 30-day trial of its products for the purpose of demonstration and/or evaluation under the following conditions:

- JAECO requires a purchase order or VISA/MasterCard for use of its products. The purchase order number or VISA/MasterCard will be used to bill for the items if:
 - It is determined that the equipment will work for the client and the client decides to keep the equipment
 - Items are lost and not returned
 - Items are not packaged properly, and wear or damage occurs to the product and/or the products finish due to shipping. We ask that the parts be individually wrapped to avoid damage during shipping. (A minimum of 15% of the cost per item damaged will be assessed.)
 - Items are damaged and not repairable due to neglect or improper use. (Will be billed for full price of item.)
- The borrower assumes full financial responsibility for items if any of the instances occur previously outlined.
- The request for trial should be submitted via email or fax either handwritten or typed. A simple statement giving the purchase order number, items to be trialed, and facility that is requesting the items will be sufficient. Please include a contact name and number.
- If equipment can not be returned before the 30-day trial period is expired, contact must be made regarding the status of the trial. In some instances, an extension may be granted.
- JAECO will pay for shipping of the items to the user. We ask that the user arrange and pay for the return shipping of items.
- The borrower accepts these conditions in whole.

Please sign and return this statement with the trial request. Retain a copy for your records.
